 Parent/Guardian

The HK Foundations Center, ("The Center"), is a branch of the HK Community Fund of Maplewood & South Orange, ("the Fund"), and serves students, grades 7-12, who reside in Maplewood and South Orange.

It is our mission to empower the youth of our community and enhance their sense of self and belonging through self expression. The Center's unique approach encourages creative self-expression through the illustration of the practical importance of academic skills and related application to digital media productions. The Center will apply an "inquiry-based learning" approach whereby the Center's Scholars will participate in the planning, development and evaluation of their media projects under the guidance of the Center's facilitators.

Workshops offered Fall 2010 begin September 13 and run for 6 consecutive weeks. Two sessions will be offered this fall, the second beginning November 1. Please note the schedule below when making your selection on the attached application.
